

Virtual Lab Tour

CPE380, Spring 2023

Hank Dietz

<http://aggregate.org/hankd/>

A Physical Tour?

- Normally, I'd have the class tour my lab to see some cluster supercomputers in a machine room with 30 tons of air conditioning and 72 20A circuits providing power... but the Pandemic isn't fully over
- You can still individually or in small groups get a physical tour...

A Quick Virtual Tour of the KAOS Lab in Marksbury

Dietz's ECE Lab, 108

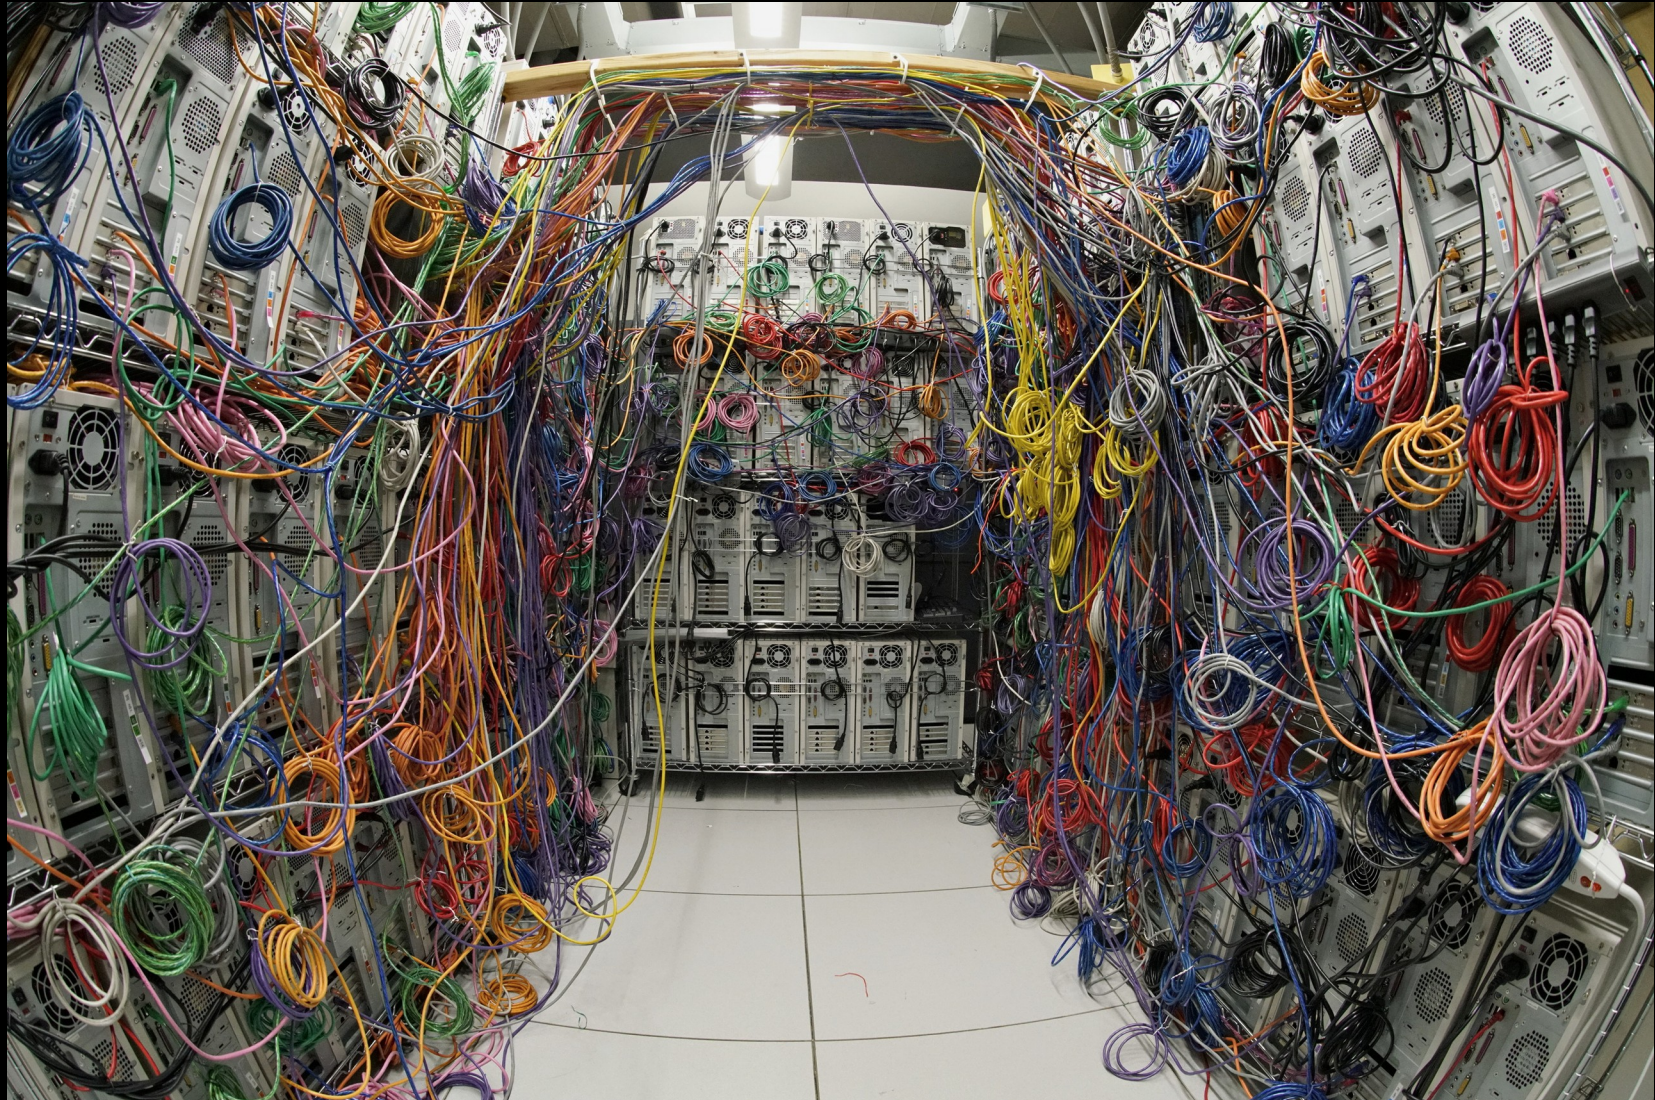

Machine Room, 108A

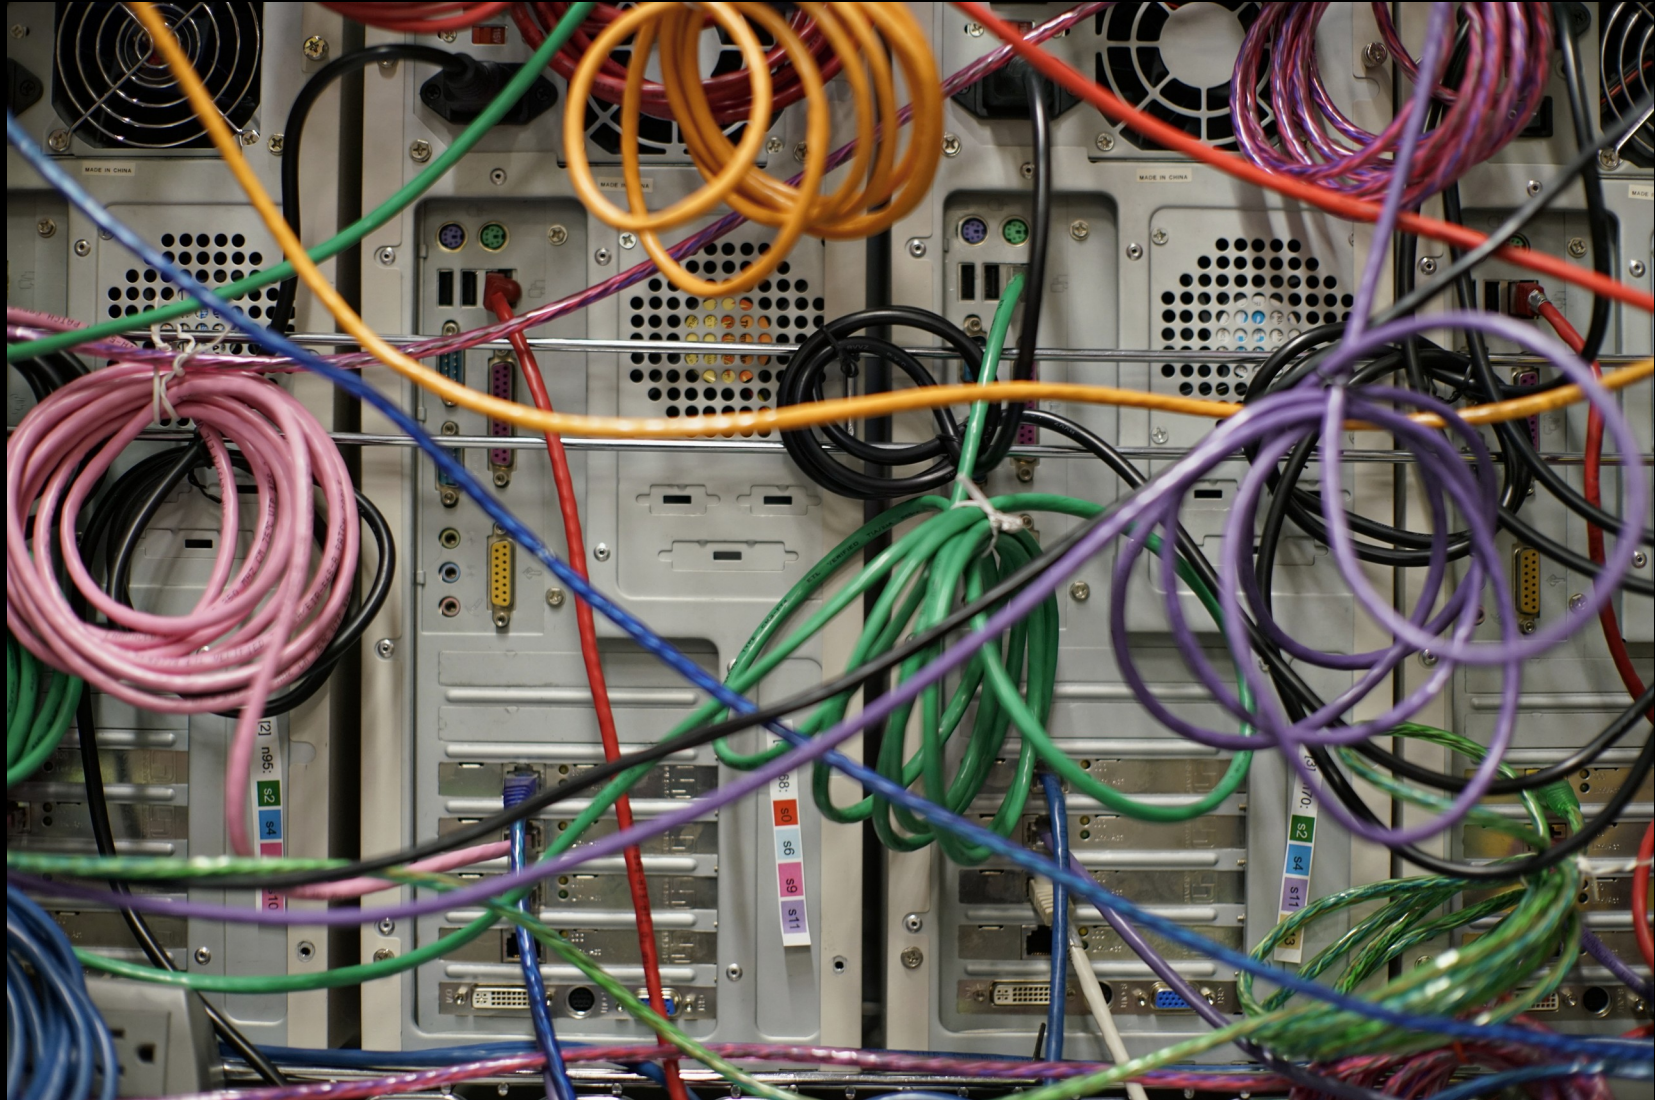

RAID, Heads, & Rack Cluster

Our “Big” FNN GPU Cluster

How to Wire an FNN

Our Quantum-Inspired Stuff: Parallel Bit Pattern Computing
